

Sun Cobalt Control Station

Sun's End of Service Life policy for Sun Cobalt Server Appliances. This policy is subject to change. Please check this website regularly to monitor changes in this policy

The Sun Cobalt Control Station server appliance is an End of Life (EOL) product as of November 21, 2003. This date coincides with the effective last shipment of the Sun Cobalt Control Station server appliance.

The Sun Cobalt Control Station server appliance will follow the standard Sun End of Service Life (EOSL) policy subject to the following clarifications listed below.

Software Support Guidelines:

Prior to the official EOL date, Sun has used reasonable efforts to fix all identified software functionality bugs to date on the Sun Cobalt Control Station server appliance. Subsequent to the official EOL date, November 21, 2003 additional software support will be limited to security patches only.

Sun currently plans to maintain the knowledgebase and Support Forum for the Sun Cobalt Control Station for two full years. (11/21/2005)

From 11/21/2005 to 11/21/2008, software support goes on a time and material basis only, after which support will no longer be available from Sun.

Hardware Support Guidelines:

For a period of three years subsequent to the official EOL date, November 21, 2003, Sun Microsystems will continue to honor hardware extended warranties purchased prior to the EOL date. Sun will provide out of warranty hardware support until 11/21/2006 on a time and material basis only, after which support will no longer be available from Sun.
