

ADMINISTRATIVE SOFTWARE SYSTEMS FOR EDUCATIONAL INSTITUTIONS

Integrated Tertiary Software (Pty) Ltd provides the education community with fully integrated ERP administrative software systems to support the functions and processes found at Universities, Polytechnics and Technikons, Colleges for Further Education and Training and private education institutions. The company also provides functional and technical support to ensure that "best practice" procedures can be implemented by clients, resulting in effective utilization of the software systems.

Administrative Systems include Student Management Systems, Financial Management Systems, Human Resources (Personnel) and Payroll Systems, a Library System and Management Information Systems.

ITS' software products and extensive support and consulting service can assist your institution to render world-class service to students, staff, management and extended client base.
