

Sadiel S.A.

Sadiel S.A. (www.sadiel.es) is an established Spanish IT firm established in 1994, currently employing 700+ professionals.

Addressing numerous market segments, including Public Administration, and Utilities, Sadiel S.A. has identified the Education market as the strategic focus to its efforts, since it combines the innovative use of technologies and the improvement of social outcomes. Sadiel counts on 100 full-time employees devoted to the global Education sector with proven skills in technology, school management, e-Administration and pedagogical processes. Their experience includes helping several Ministries of Education in the planning IT deployment.

Sadiel Education's Portfolio includes the PAPÁS Platform (www.papas.eu.com) that currently supports the provision of services by various Public Administrations with Educational competencies. PAPAS has been recently ported to Solaris 10.

For its customers, Sadiel provides consultancy and IT services that allow them to run information systems sustaining

- Internet based Education Management where maximums of 5.000 schools and 90.000 teachers on-line
- Home-School Collaboration Management allowing the effective communication of Schools and Parents
- Help desk services to Education Professionals and Parents
