 - Sun ONE Directory Server 5.1
 - Sun ONE Messaging Server 5.1
 - Sun ONE Calendar Server 5.1
 - Sun ONE Web Server 6.0
 - Solaris 8 Operating Environment

Key Business Solutions:

-
- Deployment of Banner SIS, on Sun Fire and Netra
 - Deployment of Luminis portal software, which is Sun ONE based
 - Migration from 4 disparate systems with 10 different databases to one database running Banner - thus integrating all two-year community colleges and four-year campuses in the UH system
 - Migration of 65,000 e-mail accounts to the Sun ONE platform, resulting in a 400 percent improvement in performance
 - Sun ONE Directory Server to store and manage user identity profiles, as well as access privileges and application and network resource information
 - Sun ONE Messaging Server to provide a centralized, highly scalable Web-based message exchange platform.
