

Sun Trunking 1.3 Matrix for Supported NICs and Built-in Networking Ports of Servers			
NICs	Combination 1 (Cassini Driver)	Combination 2 (GEM driver)	Combination 3 (QFE driver)
GigE PCI : x4150A (EOLed X1150A/X3150A)	X	EOLed X1141A	EOLed QFE X1034A
GigE PCI : X4151A (Eoled X1151A/X3151A)	X		
Quad Port GE: X4444A/X4445A	X		
Dual Port GE: X4422A	X		
Built-in GigE ports supported only on			
- V440	X		
- V480R/490	X		
- V880/890		X	
- V1280/2900	X		
Max number of links per trunk	4*	4	16
<b>NOTE</b>			
1. Links within a combination group can be aggregated. Links across combination groups cannot be aggregated. All links must be full duplex (half duplex links cannot be aggregated).			
* <b>Greater than 4 links not supported as there is no incremental performance gain from &gt;4 links</b>			
2. Trunking 1.3 does not support built-in ports of any other servers except for V440, V480R/490, V880/890, V1290/2900
