1. Scope

- Sun will interview mutually designated Customer representatives, define Customer-specific skill levels and skill profiles based on information provided by Customer, administer online skill assessments, identify skill gaps, and make training recommendations to fill identified skill gaps.

2. Tasks and Deliverables

- **Customer Interviews.** A Sun Education Consultant will interview the mutually designated Customer representatives on mutually agreed upon dates to define the skill profiles to be assessed. Sun will develop Customer-specific skill profiles and online assessments to assess the skill levels of Customer's employees to perform in the Customer-specific profile. The number of Customer-specific skill profiles and assessments Sun will develop will be as set forth in the Order Confirmation or Sun quote in the event an Order Confirmation is not issued.
- **Skill Assessment Delivery.** The skill assessments will be available for access by Customer's designated employees for a period of five (5) days after notification from Sun that the assessments are available. The number of Customer employees entitled to access an online skill assessment will be as set forth in the Order Confirmation or Sun quote in the event an Order Confirmation is not issued.
- **Skill Assessment Delivery Method.** The skill assessments will be administered via the Internet by means of a web-based, Java technology-enabled Web browser.
- **Report.** Within twenty (20) business days after receipt of all completed assessments, Sun will deliver to Customer a report for each individual employee and a collective report for all employees assessed, evaluating the employees' existing skill levels against the previously defined skill profiles, and making recommendations for training to fill any skill gaps identified.
