

Data is the constant in business. And there's more data on the network than ever before. The Participation Age — with its massive data growth, grid computing, and thousands of applications and applets — requires easier and more intelligent data management. Sun's StorageTek™ tape media works in tandem with our tape libraries and tape drives to simplify your infrastructure, support easy access, and provide data integrity.

CONTRIBUTE TO BETTER TOTAL COST OF OWNERSHIP.

Receive more comprehensive warranty coverage. The warranties for StorageTek tape libraries and drives are enhanced to provide worry-free coverage only when you use StorageTek media. In addition, our worldwide customer support organization can help minimize service interruptions and downtime.

INCREASE YOUR CONFIDENCE.

Operate with confidence knowing that your business-critical data resides on a tested solution. StorageTek tape media, drives and libraries undergo extensive testing so they work seamlessly together.

ADD EXPERTISE, NOT STAFF, WHEN YOU NEED IT.

Tap into decades of storage experience to minimize disruption and save time on projects related to media conversion, data consolidation, media relocation, and media destruction.

STREAMLINE TAPE OPERATIONS.

Simplify operations with a single point of contact for your entire Sun tape solution when you use StorageTek media.

TAPE MEDIA LABEL KITS

In addition to tape media, you can get your media label kits from Sun. We offer 60- and 200-piece kits which include:

- Six cleaning labels are included in the 60-piece label kit and 20 cleaning labels are included in the 200-piece label kit
- The label ranges are generated at random with non-repeating, sequential numbers

Label kits are available for these media products:

- StorageTek™ T10000
- StorageTek™ 9940
- StorageTek™ 9840
- StorageTek™ LTO 4
- StorageTek™ LTO 3
- StorageTek™ LTO 2

**WITH SUN STORAGE TEK™ TAPE MEDIA
YOUR DATA IS ALWAYS WITHIN REACH.**

MORE CHOICES

Sun StorageTek media is designed to work seamlessly with Sun StorageTek libraries and tape drives in entry-level, open systems and mainframe environments.

You can choose StorageTek tape media for high capacity or fast access, labeled or unlabeled. Write-Once, Read-Many (WORM) protection is available on enterprise and midrange media. For onsite or offsite archiving, StorageTek tape media is rated for 30 years.

To purchase StorageTek media in the US, call 877-STK-TAPE to locate the nearest Sun StorageTek media reseller or email: us.mediaorders.com.

To purchase in Europe, call +31-43-350-3896 to locate the nearest Sun StorageTek media reseller or email: emea.mediaorders@sun.com.

To purchase in Latin America email: la.mediaorders@sun.com

MORE SUPPORT

Thorough testing and integration is a key defense against errors and risk. Sun takes defense a step further by writing the enterprise media specifications for the Sun StorageTek T-Series™ tape drives. Then we test our libraries, tape drives, and media together to make sure they meet our high standards for quality.

StorageTek tape media comes with a market-leading warranty and our award-winning** customer support organization, known for its ability to resolve issues quickly.

MORE EXPERTISE

Sun storage professionals apply more than three decades of experience to media projects. Every project includes expert project management and change management, which can help you maintain high data availability during a transition. We provide personnel and experience to complement your staff. Together we achieve the results you want:

- Media and data conversion
- Data consolidation
- Media relocation
- Media destruction

MORE CONVENIENCE

Take advantage of our single point of contact for media sales and support. Call 1-877-STK-TAPE (1-877-785-8273). With Sun StorageTek media, more really is more. So you can worry less.
