

Sun Java™ Enterprise Edition Developer eLibrary WLIB-108

Simplify Training and Maintain Critical Skills

A self-paced learning alternative capable of meeting your team's most demanding schedule—anytime, anywhere
eLibraries are collections of self-paced online courses grouped by technology that are available on a subscription basis at one low price per user. Licenses for eLibraries are available for 10 or more users, and each user is provided with unlimited access to all courses within a library for the subscription period.

Who can benefit

The Sun Java™ Enterprise Edition Developer eLibrary contains a series of courses and practice exams designed to help developers learn how to build and deploy applications that comply with Java™ Platform, Enterprise Edition (Java EE™) 5 standards. This eLibrary is for teams of developers interested in:

- Developing applications for the Java EE platform
- Web tier development
- Enterprise tier development (business and integration)
- Achieving certification in Java technology

Application development for Java EE 5

A series of courses introduces experienced Java developers to the fundamentals of application development for the Java EE platform.

Web tier development

A series of courses provides training on how to build and deploy web applications from JavaServer Pages™ (JSP™) and servlet technologies.

Enterprise tier development (business and integration)

A series of courses helps experienced Java developers gain the necessary knowledge to develop robust back-end functionality using Enterprise JavaBeans™(EJB™) technology.

Certification in Java technology

Many of the courses are ideal for those preparing for certification in Java technology. The training and practice exams in this eLibrary directly support preparation for two of Sun's award-winning and industry-recognized Certifications in Java technology:

- Sun Certified Web Component Developer for the Java Platform, Enterprise Edition (SCWCD)
- Sun Certified Business Component Developer for the Java Platform, Enterprise Edition (SCBCD)

<i>Line Item</i>	<i>Course Number</i>	<i>Title</i>	<i>Certification Preparation</i>
For developers interested in certification:		Java Technology Practice Certification Exams:	
1	WGS-PREX-J052C	Sun Certified Enterprise Architect for the Java Platform, Enterprise Edition 5	Supports SCEA
2	WGS-PREX-J083C	Sun Certified Web Component Developer for the Java Platform, Enterprise Edition 5	Supports SCWCD

Line Item	Course Number	Title	Certification Preparation
For experienced Java developers new to the J2EE Platform:		Developing Applications for the Java EE Platform:	
3	WJ-3101-EE5	Introduction to the Java™ EE Platform	Supports SCWCD/SCBCD
4	WJ-3102-EE5	Developing Components for the Java™ EE Platform	Supports SCWCD/SCBCD
5	WJ-3103-EE5	Implementing Persistence, Transactions and Messaging in a Java™ EE Application	Supports SCWCD/SCBCD
6	WJ-3104-EE5	Implementing Java™ EE Web Services and Security	Supports SCWCD/SCBCD
7	WJT-DTJ-1000	Java EE 5 Platform and Enterprise JavaBeans 3.0 - An Expert-to-Engineer Session	Supports SCWCD/SCBCD
For web tier development:		Web Component Development with Servlet and JSP Technologies:	
8	WJ-3141-EE5	Developing Web Applications Using Core Java™ Servlet Technologies	Supports SCWCD
9	WJ-3142-EE5	Developing Web Applications Combining Struts and Advanced Java™ Servlet Technologies	Supports SCWCD
10	WJ-3143-EE5	Developing Web Applications Combining Struts and JSP™ Page Technologies	Supports SCWCD
For enterprise tier development (business and integration):		Business Component Development with Enterprise JavaBeans Technology:	
11	WJ-3511-EE5	Introduction to EJB Component Development	Supports SCBCD
12	WJ-3512-EE5	Enterprise Java Beans(TM) Technology: Implementing Session Beans and Java Persistence	Supports SCBCD
13	WJ-3513-EE5	Enterprise Java Beans Technology (TM): Implementing Messaging and Interceptor Classes	Supports SCBCD
14	WJ-3514-EE5	Enterprise JavaBeans(tm) Technology: Using the EJB Container Services Optimally	Supports SCBCD
		Web Services and XML	
15	WJO-1114	Web Services Infrastructure and Organizations	
16	WJO-1115	Overview of XML	
17	WJO-1118	Web Services Enabling Technologies	
18	WJT-3502	Managing Your Web Services Deployment	
		Creating Web Services Using Java™ Technology	
19	WJ-31111-EE5	Java™ Web Services: Introduction	
20	WJ-31112-EE5	Java™ Web Service: Applying Web Service Specifications and APIs	
21	WJ-31113- EE5	Java™ Web Service: Applying JAX-WS Technology	
22	WJ-4112-EE5	Designing Java™ Web Services	

Last Updated 06/18/08

Please note that this list is subject to change as new courses are created and existing courses are updated or retired. Periodically a course will be added that is an update to an existing course. If this occurs, the progress in old courses may end and students will be re-enrolled in the new course.
